

# Work From Home?

## Do I Need To Go Back To Office?

Like so many others these days, most have jobs that they can do mostly from home – like a software engineer, support....

It can be great for the family. You can take the kids to school in the morning and on many days you and your wife can even get to have breakfast or lunch together.

But – most are finding it harder and harder to sit down and work each morning. There is always one more thing to do and no one is noticing when you actually get to your desk.

You may now be asking do I need to go back to the office?

Well, welcome to the real world. Everywhere we turn we face a challenge. This is a good thing as it means that we are alive and have the chance to grow. Confronting our challenges and joyfully overcoming them is **the credo of the Happy Warrior**.

You may have heard us talk about our **5Fs Principles, integrating our families, faith, fitness, finances, and friends**. Your work situation is letting you move easily between finance and family. Our recommendation is to add in three more Fs to your morning.

We don't know if you are a person of faith. If you are, make sure to take time to pray in the morning, including asking God to bless your work and let you be of use to others with what you do. Be sure to enumerate

the good things in your life generally and add in specifics from the past twenty-four hours as you express gratitude.

If you are not a person of religious faith, take the same time and meditate. Train your mind to focus on the many aspects of your life for which you can feel gratitude.

Gratitude is the portal to optimism so whether you pray or meditate on matters for which you feel appreciation, you will emerge from that quarter of an hour with renewed optimism, which is a wonderful asset with which to start your day.

Second, we would like to draw your attention to the F of fitness. We advise a period of exercise. We don't know whether it should be aerobic, cardio, or strength training. But we do know that it must be a challenging workout. If some days you can take that time outdoors surrounded by nature, all the better. If you master your body and exert discipline each morning, you will more easily overcome all the other challenges confronting you through your workday.

Deadlines and sticking to them punctually convert a daydream into achievement. Consider appointing a friend who has a similar work-at-home lifestyle as your **punctuality partner**. You could agree to make your first order of business as soon as you sit down at your desk or workstation, a quick phone conversation to confirm that you are both at work. (If you can exercise together, all the better.).

Lastly, we don't know if there is still an office to go to. But, maintaining good relationships with co-workers and with those in the tiers above and below you at work is a very good idea. If feasible, we recommend that you go into the office once or twice a week even if it isn't required. Strengthening the finance-friendship crosslink will yield results and is well worth the effort.

## Adjusting your money thinking mindset

The five books of Moses brought down from God on Mount Sinai contain far more rules and regulations about financial transactions than they do about any other category of moral teaching.

About 60% of both the Old and New Testament is about money and Biblical economy.

What is more, Bible teaching through the lens of ancient wisdom illustrates how financial transactions allow strangers to please one another... AND this pleases God!

The Yosef (Joseph) Generations Inner Circle MasterMind For Conquers reveals it all, and much more.
